Do you want to increase the speed of your MTS, M2TS video files? Are you using a different DVD player than the one you bought? Do you want to synchronize the video and audio tracks? Do you want to change the default subtitles and audio tracks? Do you want to convert a DVD file to other formats? Do you want to do all these and much more? Then this is what you need. KeyMacro is a DVD and video converter that will enable you to convert your DVD and MTS, M2TS video files to other formats, such as Apple TV, Windows Media Player, MKV, MP4, H.264, etc. It also enables you to add subtitles and audio tracks to your video files. You can create your own subtitles and audio tracks in many languages. KeyMacro's main function is to enable you to create your own subtitles and audio tracks for your video files. This program has a powerful Text to Speech engine. You can use the Text to Speech engine to convert your DVD video files to other formats. KeyMacro allows you to convert DVD to Apple TV, MP4, MKV, MP4, H.264, and H.265. You can also extract your DVD audio files and convert them to MP3, M4A, AAC, AC3, OGG, WAV. KeyMacro lets you change and create your own subtitles and audio tracks in many languages. You can add and remove subtitles and audio tracks at any place in your video file and change their speed and pitch. KeyMacro offers a user-friendly interface. You do not need to download any additional software. KeyMacro is a standalone application, so it can be operated from any PC, laptop or Mac computer. KeyMacro supports the following video formats: DV, DAT, DV25, DVCPRO, DVCPRO25, DV50, DVCPRO50, DVHD, DVCPROHD, DV6, DVCPRO6, SVCD, SVCD25, SVCHD, VCD, VC1, DVC, DVC2, AVCHD, H.264, H.265, MPEG-1, MPEG-2, MPEG4, XVID, Xvid, XVID2, 3GP, 3GP2, 3GPP, AVI, F4V, FLV, HVEC, HVPA, MOV, MP4, MPEG
