Ptc CreoElements Direct Modeling
Cocreate 18-torrent-rapidshare.torrent A:
The.code extension is associated with
Native C++ plugins, which will work on
Linux. If you want the source code for the
Linux version, then you need to get it from

the xxxxxxx-linux-xxxxx.tar.gz download site (note that there may be differences in the plugin code between the Linux version and the Windows version). You can take a look at the code in the `/data/data/com.ptc/files/work/plugins/ide` that you should get from the `d:\support\PTC_Elements_Direct_Modeling` folder, because you'll see an example of how you could create a plugin.
