Beginnings Although the first drawings were created in 1954, Autodesk's first product, named DBase, went on sale in 1964. At the time it was the first and only program that allowed CAD drafting on an IBM Personal Computer. On January 18, 1968, Autodesk was founded. In 1972, Autodesk released another product, AutoCAD, to supplement its products. This was the first CAD program to have an extensive user base and it was among the first CAD programs to have a database-like drawing system called an architecture (or datastore) rather than the strictly plotter model that was then in use. The company was later bought by Warner-Lambert, the largest pharmaceutical company at the time, in 1988. SIGGRAPH 2005 conference was held on August 13–18, 2005 at the Salt Palace

Convention Center, Salt Lake City, Utah, USA. The theme of this conference was "Intelligent Design" and also there were a lot of lectures on CAD systems to present some technological achievements in CAD industry. The video conference in CAD Conference held from August 31 to September 1, 2005 was arranged at the Telkom Expo, Kuala Lumpur. In August 2005, Autodesk was acquired by software company eServices, Inc. Autodesk stock was not traded, so the company became private. Rapid City Studio was then renamed to AutoCAD Architecture. AutoCAD Architecture was renamed to AutoCAD Architecture 2010 in September 2011. On February 1, 2012, Autodesk renamed its architecture products to AutoCAD Architecture and discontinued the AutoCAD Architecture brand. In 2013, Autodesk launched the service Autodesk AutoCAD Exchange Apps. It allows users to upload or download files.
