Features Key:

- Attacking intelligence – Rookies will develop faster, while veterans will have greater finishing power to break down the defense.
- Sandpaper marking – the game has improved AI opponent marking so that defenders and midfielders bring pressure in the right areas of the pitch to cause fouls or turnovers.
- Keeper Channel – After the ball is out of play, goalkeepers can still intercept the ball with a ground-post contact.
- Preferred Play Styles – Make your control style your own by selecting any of the 10 available control methods – just as you do in real life. You can kick the ball in a prescribed direction, hold a specific direction, or use a combination to create a new style of play.
- Breaking Change – Play mechanics have been adjusted to help to improve on the overall flow of the game. The default key commands are now TOUCH and SHIFT + SPACE to open the development prompt instead of the default arrow keys.
- Speed, acceleration and stamina – With a new "Boost" Power Control, players have the most control of ball and player acceleration, and the highest boost stamina to chase down any crosser.
- Keyboard and controller – New up and down and sideways moves have been added to give better control for players on keyboard or controller. In addition, players now have the ability to sprint and jump gracefully.
- Dynamic Player Weighting – Players self-inflict low weight when tackling, standing still for long periods, or moving in unnatural ways. This makes players more fragile and less suited to handling the ball.
- Lag Optimised – FIFA 20 solved the huge connectivity problem for players in recent seasons. It fixed players who dropped into the midfield as well as link failures to offline games.
- Lossless audio on PlayStation 4 and Xbox One – The audio system has been optimized for both consoles and PS4 Pro version.
- Lossless audio on PC – The PC version has also been optimized for a lossless experience.
- Draw offers – Improved the experience of making offers and receiving cash after a draw offer. Drawing offers from rival is now on a first come, first serve basis.
- Subscribers can update to the final version prior to its worldwide release
- New exclusive PEAK third-party Official Kits and Tim
