In early 1940's, after the 2nd World War has started, most of Europe has in the middle of the conflict. Most of its human population has been reduced. All that is left is surviving. Every country have its own role to play in the war. In France, the Nazi party is hiding behind their garbled propaganda. The Allies are fighting from the air but the attack are handicapped by their own bombs. In Russia, The Soviet Russia have just moved into the offensive. While the US is fighting with a strong army and powerful Navy. The other nations is in the middle of the conflict, few nations are still holding on to their freedom and democracy. In 1945, human race have to choose how to survive after World War 2. Dive into the immersive world of A Well-Made World: A Well-Made World is a 3D story driven turn-based strategy game set in World War II. The game is developed and published by [H]ardcopy Entertainment. A Well-Made World is a narrative-driven strategy game. It takes place between World War II 1944-1945, about two years after the war. In this war, humanity is going through the postwar period. The game is set in three different time periods: the first half of 1943, the second half of 1944 and the beginning of 1945. Each chapter is a single episode, set in a different time period of the war. Your main character is a French soldier, Pierre, on the Eastern Front. You must rise through the ranks of the French army to reach command of all French forces. On your way, you will have to defeat the German forces and secure Paris and French Northern Territories. Each level is a single turn, with two phases, which can be taken in any order. During the first turn, your character can move around to find soldiers, collect weapons, build barricades, and collect supplies. You can choose which orders to give. You can also build and destroy bunkers. The latter allows you to destroy the German bunker which your team is hiding in, or to destroy more ground, take a soldier alive, or even save your team by throwing a grenade or a panzerfaust. In addition, your team can build a Panzerfaust or a Panzerfaust cannon. During the second phase, your unit can move and shoot against enemy units. This includes firing your Panzerfaust.

What's new in Save Daddy Trump:

, The Forgotten (Abridged) I've met a lot of "Trump is going to get us into a war that will cost hundreds of thousands of young men and women their lives, women's lives, and result in a military budget in the trillions of dollars." Crazy stuff.... "She would've started the war; she would've just gone it even if it was against my, you know, against me or against Chuck Schumer and Nancy [Pelosi, also Democrats] in this room, which I know is bad, but that's what she would've done." The Youngest of High's Trump is a Pimp??? "They said, 'Oh, you're this young guy, he's gonna go bankrupt. You're gonna start by having Trump Tower in Manhattan, in Manhattan- I love living in Manhattan, by the way. I love living in NYC' [laughter] 'You're gonna make these debts up. You're gonna start by having the longest hotel in the world, that's gonna extend over the river. I'm gonna make the longest hotel in the world- I'll never live there- but we'll get a base over here on Central Park, over on 42nd Street. I'm gonna build the biggest hotel in the world...' Oddly, and sadly, such horrible accusations are made by the man who is seemingly most full of love and respect for women. "If they come for you, if they try and take you somewhere else, they can't do it without me. I'll never let them," Trump said. "They can't do it without me. They can't do it. I'll tell you, some of the things they've said about me recently have been really terrible. Really terrible." But something else is missing from Trump's Tale of the Patriarchy. Trump is a patriarchal pimp. He is the patriarchal equivalent of pimps (product, condoms, and hopefully tokens) to their girls, I mean women. Trump is also the corporate equivalent to Bill Clinton and that new bride who was sexed up, deposited on his desk without a ring, or heart, or bank
