A: How to solve the "problem": Download the file and save it as myfile.rar Open the archive in 7zip (or another archive program) and extract the file(s) Open a notepad and edit the extracted file to include the following line: . Save the notepad file as for example "Adobe_Reader.ini", and give it a.txt file extension Open notepad again and copy and paste the following text: dlg.exe /s /t /c "d:\office\microsoft.office\Office12\MSACCESS.OCX"

"d:\office\microsoft.office\office15\MSACCESS.OCX" You can download (7zip) the 7zip archive:

Click this link to download the archive. When the download has completed, double click on the.7z archive. Then click on the next tab and select the "Extract with 7zip". (If you are having trouble with 7zip, try it. There is a manual page here.) When the installation is complete, you have 2 files in notepad: Autoinstaller.exe: This will execute the installation when you double click on it. Adobe_Reader.txt: This will execute the installation when you double click on it. If you want to replace these files with a fixed version with the same file name, rename the two notepad files first: Open Notepad and delete the contents of the 2 notepad files. Open Notepad and paste the following text: . Save the notepad file as say update.txt and give it a.txt file extension Rename Update.txt to Adobe_Reader.txt Download this the 7zip archive: Click this link to download the archive. When the download has completed, double click on the.7z archive. Then click on the next tab and select the "Extract with 7zip". (If you are having trouble with 7zip, try it. There is a manual page here.) When the installation is complete, you have two files in notepad: Adobe_Reader.txt: This will execute the installation when you double click on it. Update.txt: This will execute the installation when you double click on it. PS: The argument "-update" is because
