Free. yQ: Laravel/Eloquent query
returning array of arrays where
needed I have three models: Travel,
Hotel, Rating. This is how they relate

to each other: Travel hasMany Hotel,
Hotel belongsToTravel, Travel
hasMany Rating, Rating
belongsToHotel Travel hasMany
Rating, Rating belongsToHotel
Rating belongsToUser The Rating
model has a foreign key to both user
and hotel The two main thing I want
to do is get all ratings for a given
hotel, sorted by their value. I've
been working on this for some time,
this is what I tried:

```
$hotels->belongsToMany('Hotels');  
$travel->belongsToMany('Rating','rati  
ng_travels_hotels');  
$travel->belongsTo c6a93da74d
```
