**Download**

watching a live stream video in streaming player did not feel like watching a live stream. even pausing or stopping the video was not smooth. the browser we used had sound for these videos. but the audio is a bit distorted. secondly, the camera was not from the same angle as the instructors in the live stream. both of these things created problems when watching the live stream. these were the biggest problems for me about the cyber

---

course itself. the lack of face-to-face interaction and the non-digital recording of course material left me with no practical or academic takeaway. this is a severe setback for those of us who, like me, had a great deal of interest in the subject and intend to pursue careers in the field. in my experience, cyber programs in the united states are best suited to students who are interested in cyber issues. this is because they are focusing on a specific aspect of cyber that is most directly related to the lives of their students. in this

---

program, you are learning about the way in which technology affects education and learning. a program like that would be an excellent choice for someone who is looking to combine their interest in technology with their general education studies. the best part of the course was getting the information about cyber from someone who knew it inside and out. while i did not learn anything new about the subject, i gained an appreciation for it and its potential. on day 1, the instructor was very animated. he uses an

---

entertaining and informal style that is easy to follow. he also breaks the material into relevant sections with his dialog. the teacher makes us think about the issues in a way that is easy to understand. the examples and examples were also applicable in the context of our lives. by the end of the course, i was constantly returning to the course to review it. 5ec8ef588b
